Studied the competition prior to arrival - went with walkabout because there were no 'hidden extras'; clear, concise and plain language - you know what you're paying before you get there! Plus we got a free upgrade on our one-way rental back to Auckland.

The vehicle was large, spacious and well equipped. It was easy to drive, after the initial fear of the first 10 mins and presented no problems on any of the roads we were warned about - to Milford Sound etc. All the appliances were serviceable and are fitted securely (Remember the lock on the top of the fridge door - but I bet everyone does that at least once!) We were delighted with the toilet, but can't comment of the shower as we didn't need to use it. A simple way of moving a very comfortable hotel room around the country.

Both collection and return were straightforward. Friendly knowledgeable staff who were genuinely interested in your experiences or any problems. We have already recommended this small and attentive company to our friends and colleagues

Before we went to N.Z we made a study of the different companies of campervans. At the end it was walkabout motorhome. Honest, excellent service, no misunderstanding about insurance and prices and a tough and very strong motorhome. We recommend this company to everybody. We had a very good time in N.Z. Ad en Marieke
